EVERY CLICK YOU MAKE ECHOES THE VOICE OF MILLIONS SEEKING JUSTICE

ACF ensures your report leads to action, holding authorities accountable and driving real change

EMPOWERING YOUR VOICE AGAINST CORRUPTION AND INJUSTICE

For years, people have seen corruption, adulteration, abuse, leakages, and injustice-but stayed silent. **Why? Fear. Risk.** No protection. No results. No one to listen.

- Fear of retaliation
- No anonymity
- No action from authorities
- Harassment for complaining
- No tracking, no updates
- Feeling “nothing will change”

ACF changes this forever.

With ACF, reporting becomes simple, anonymous, and powerful. Just take a photo or video, upload it in the ACF App-your identity stays protected. ACF communicates with the right authorities, follows up using AI, escalates when ignored, and ensures that no complaint dies silently. This isn't just an app.

- It is your shield.
- It is your voice.
- It is your power to protect society.

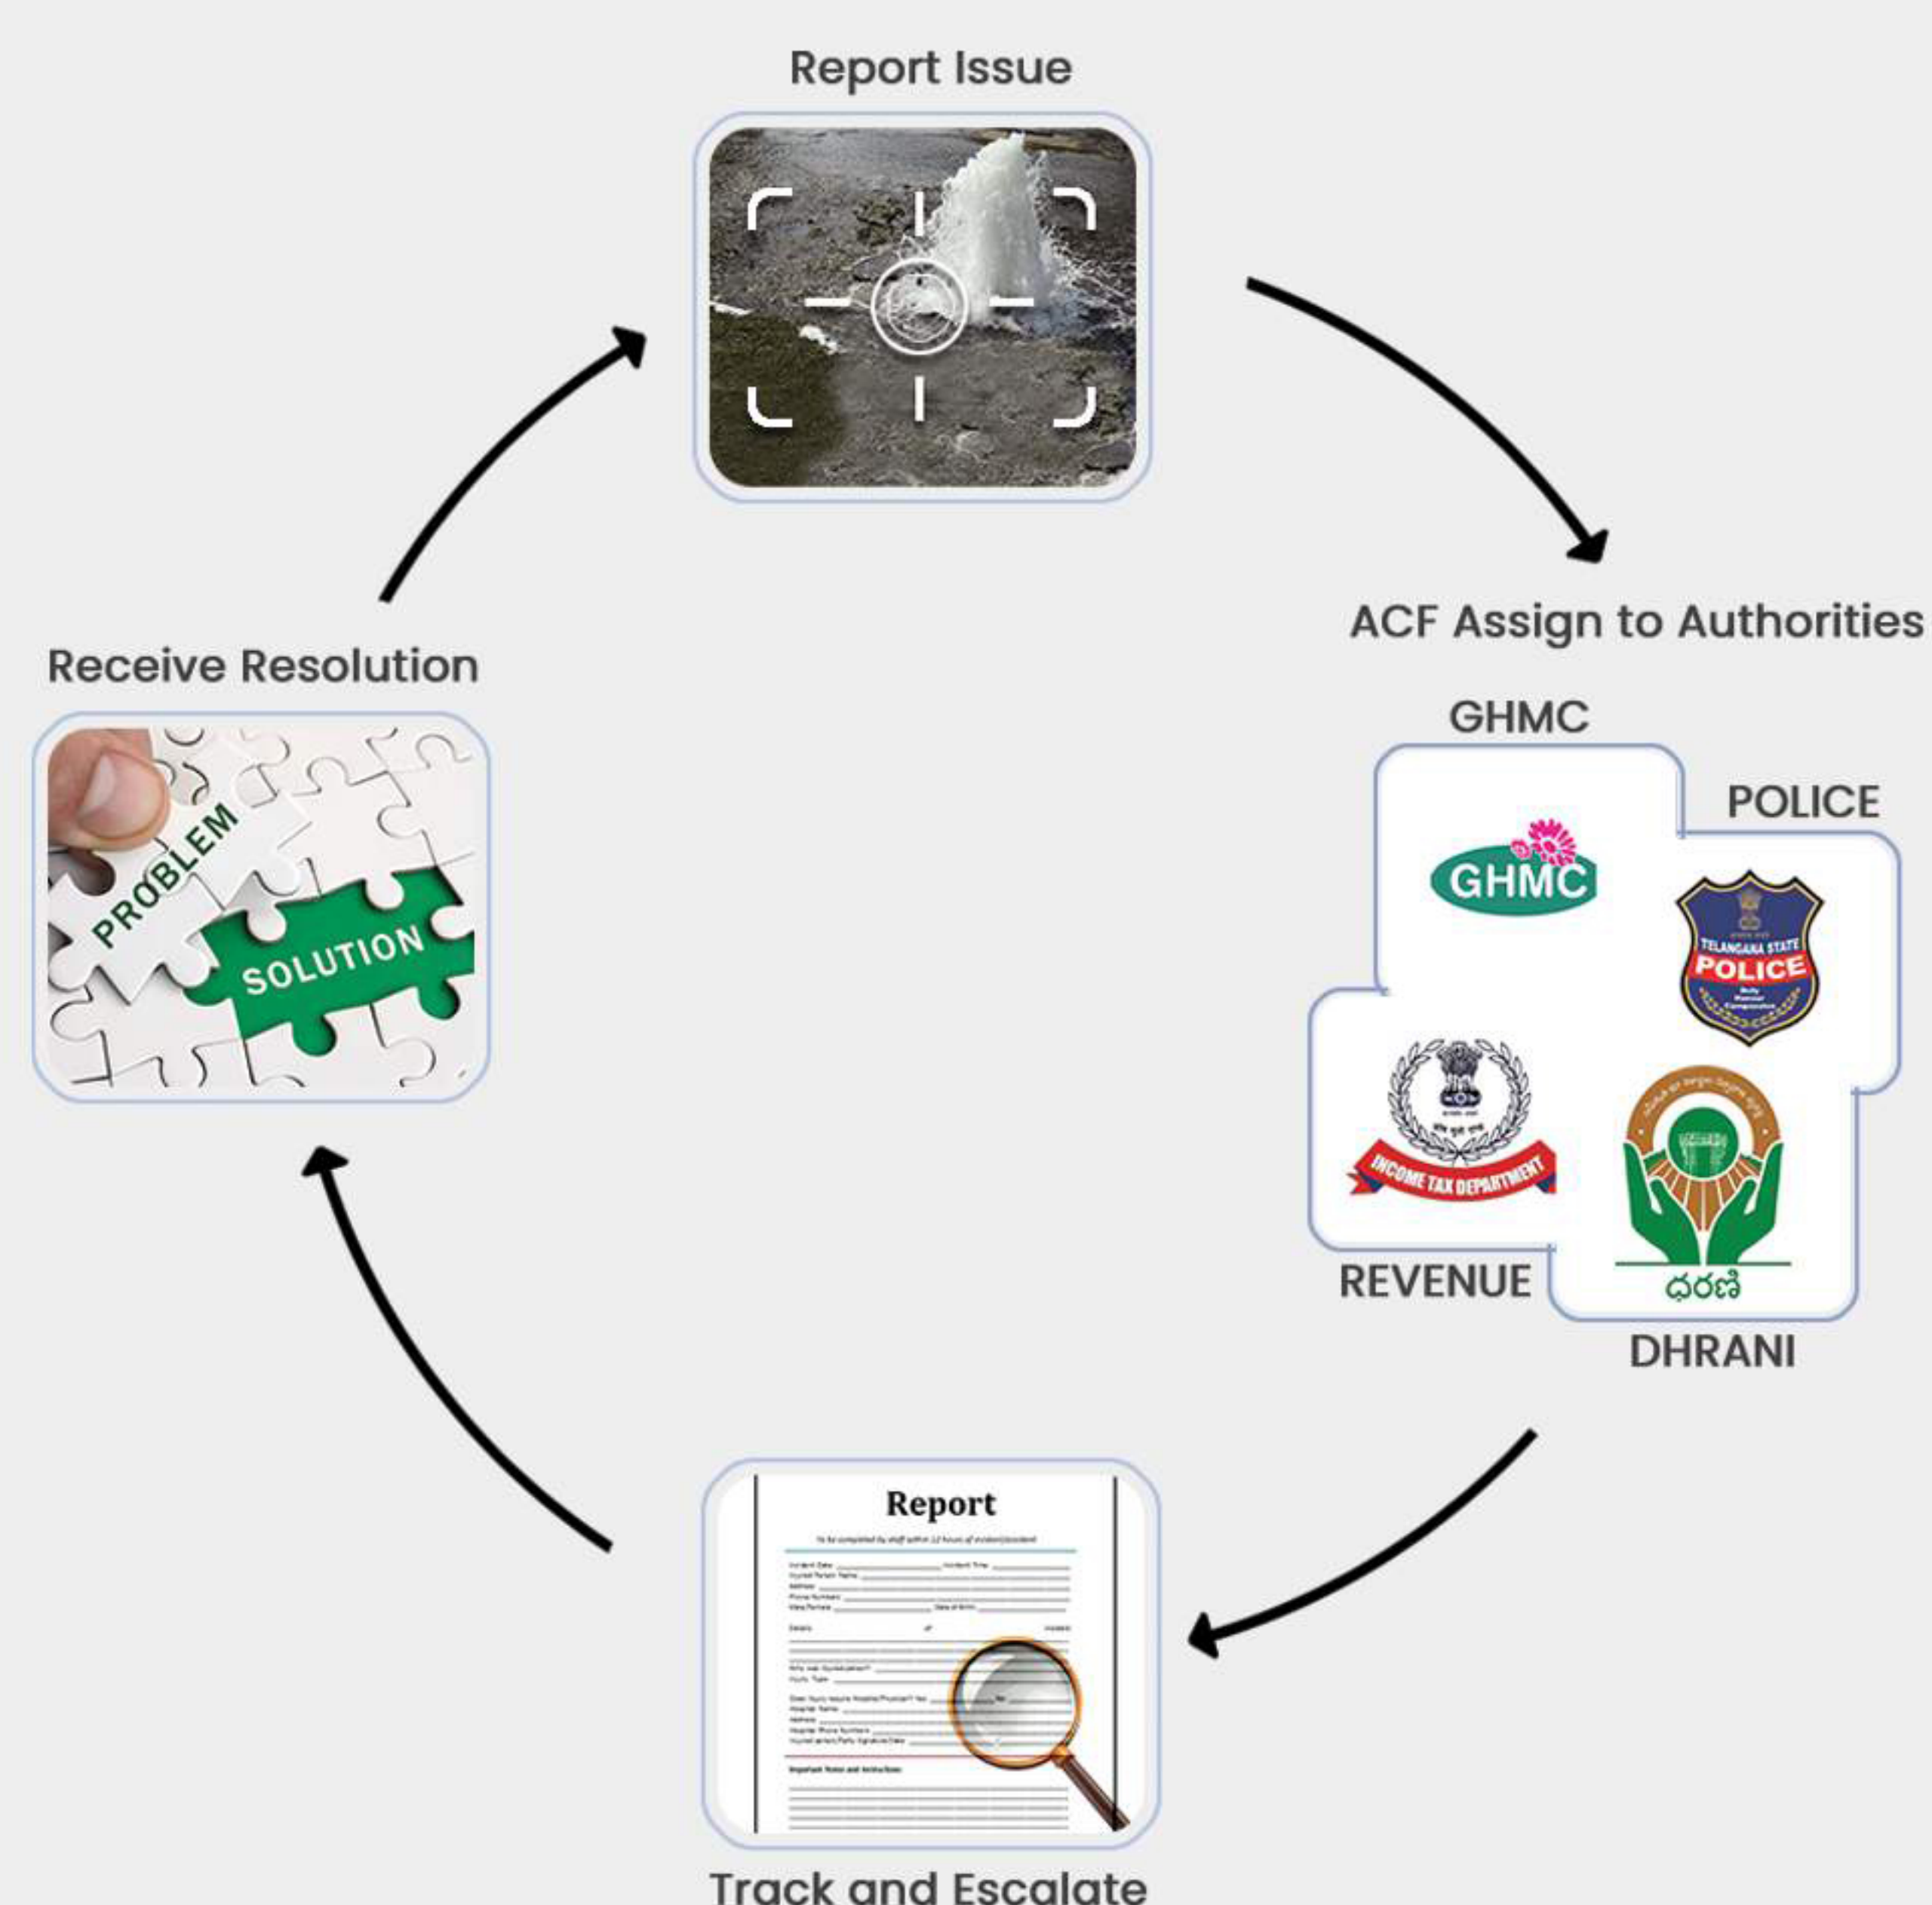

Protecting society is not someone else's responsibility. It is ours. Yours. Mine. Every citizen's. Problems don't disappear by silence - they end only when citizens Question, Report, Engage, and Act.

HOW to report with ACF

Just 3 simple steps

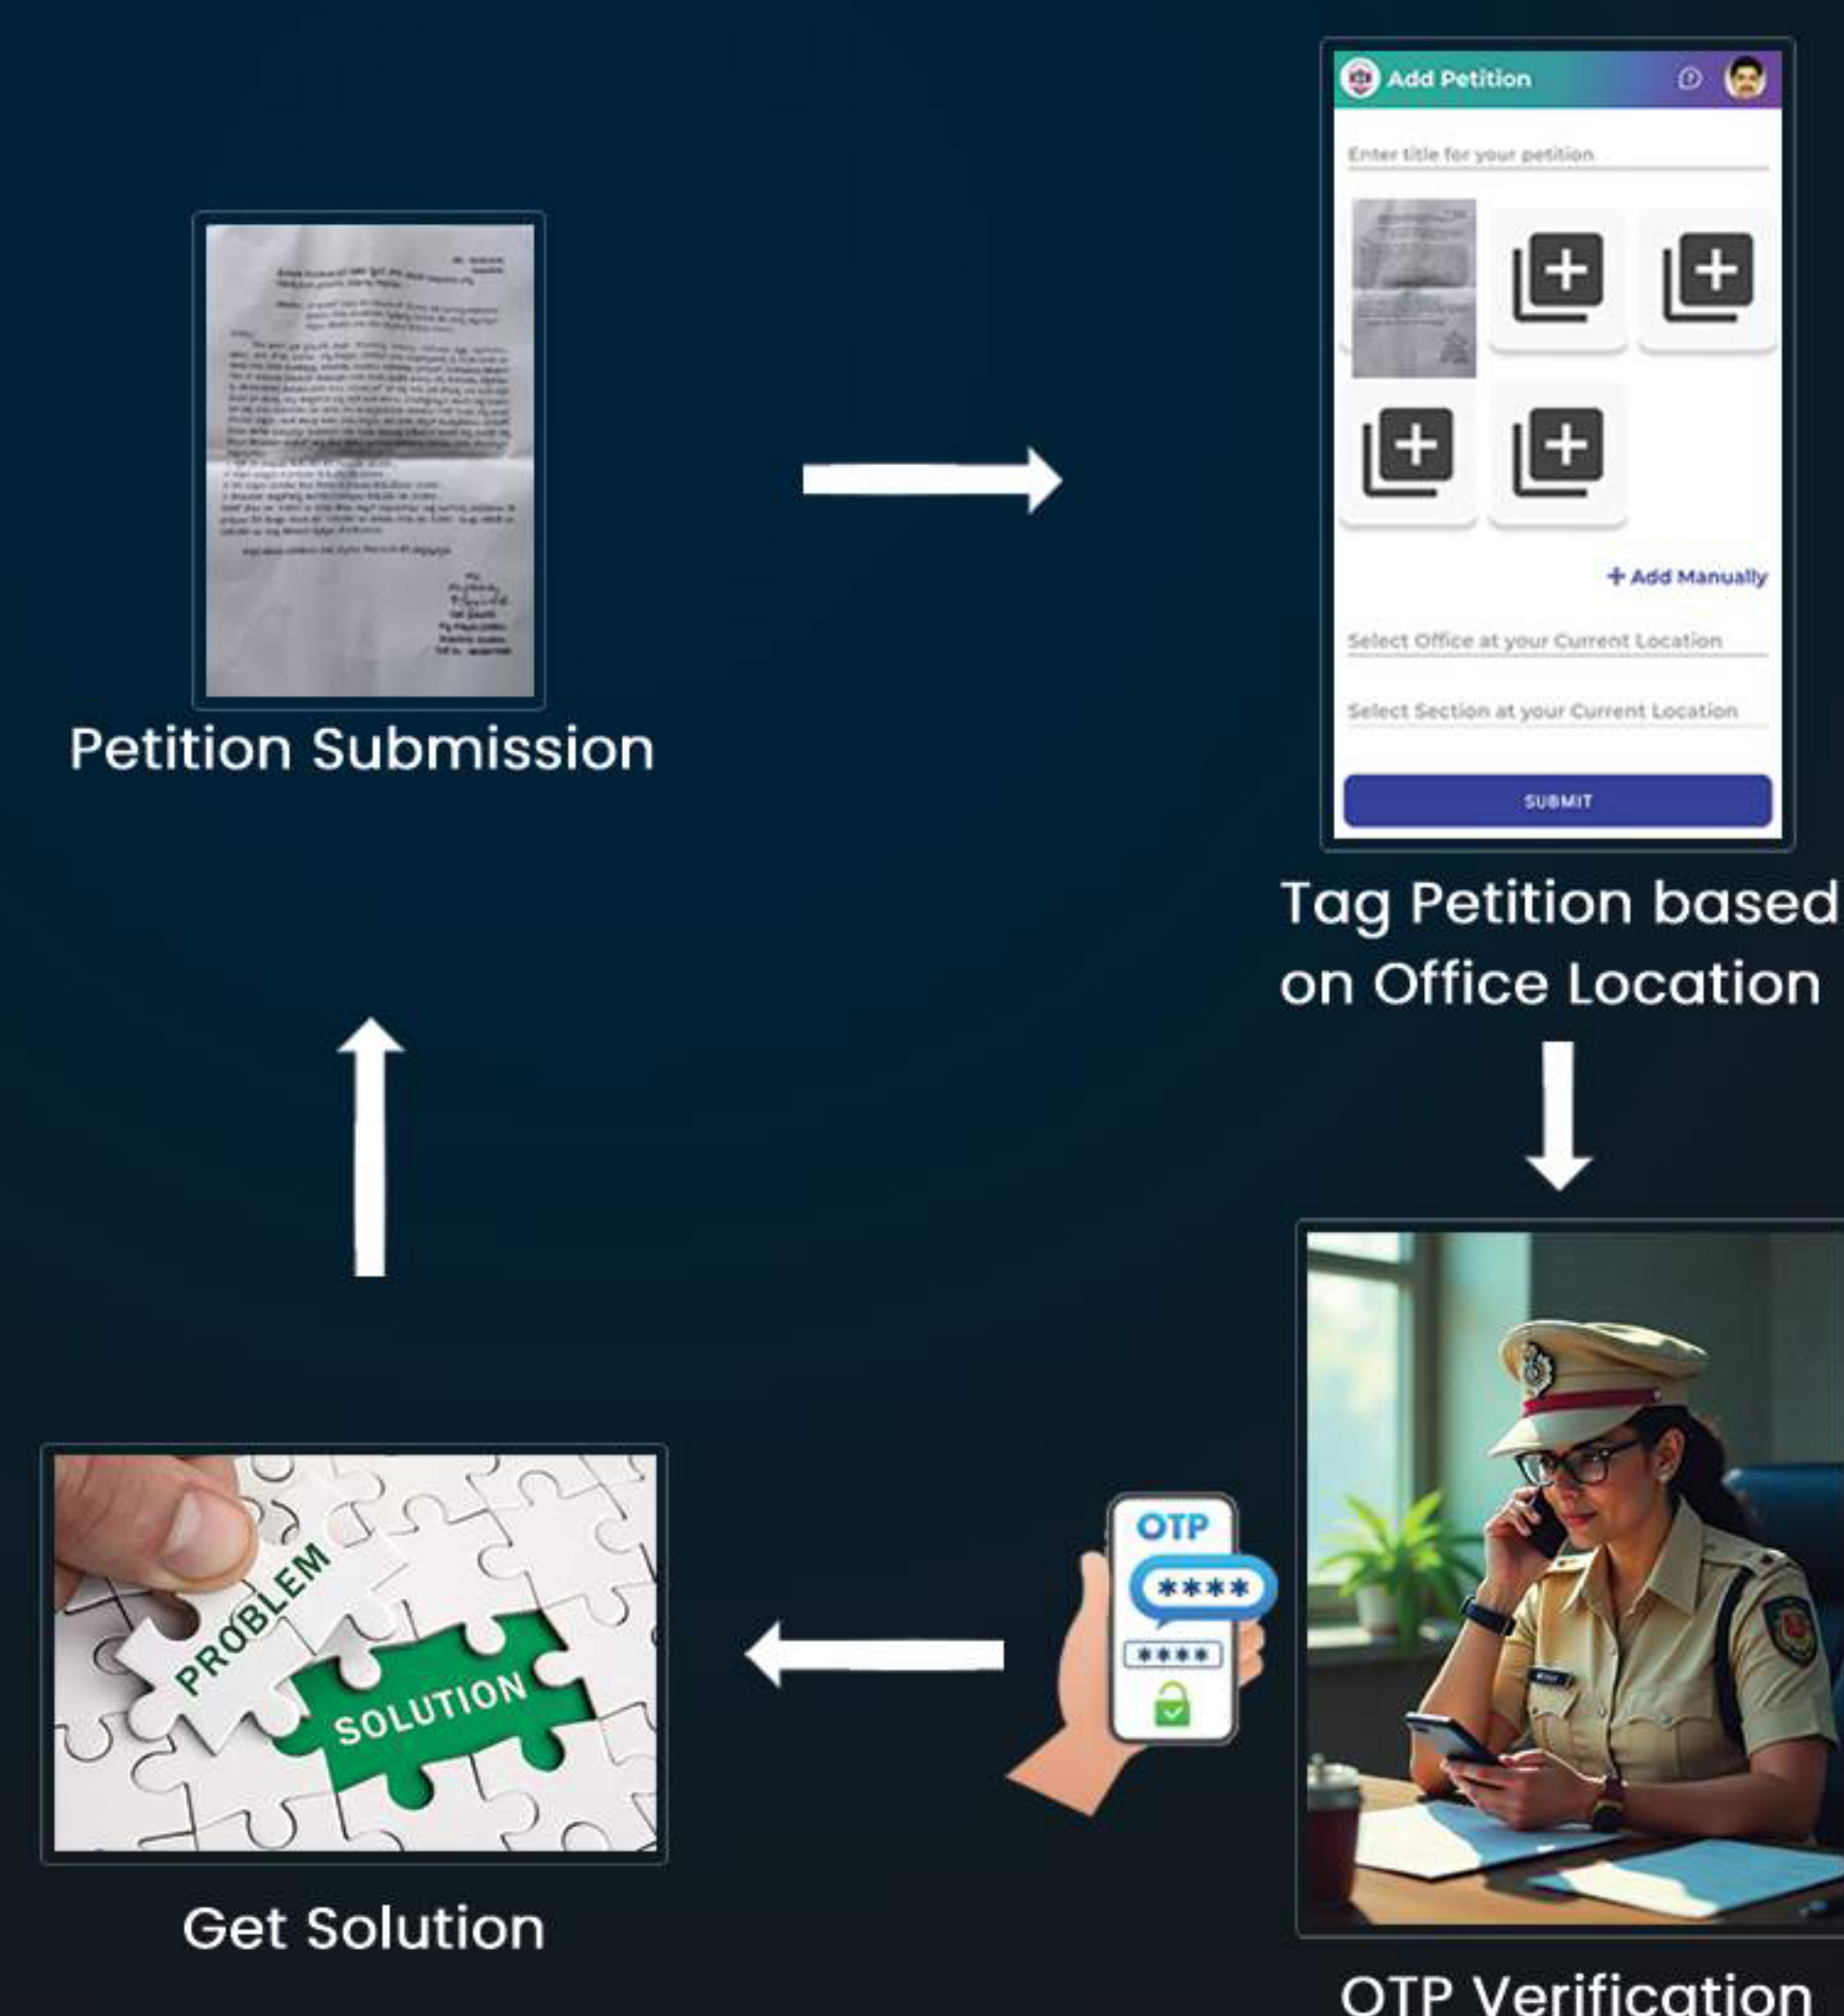

1. See something wrong?
Corruption, adulteration, women harassment, fraud, leakage, social evil
2. Click a photo or video
No forms. No visits to offices.
3. Upload on ACF App
ACF takes it forward - you stay anonymous

Your identity is fully protected - always.

E- PETITION TAGGING WITH ACF: NOW YOUR PETITION WILL BE HEARD AND HELD ACCOUNTABLE

The E-Petition Tagging feature in ACF revolutionizes how citizens submit petitions to government offices. By tagging the office location in the app, users ensure that their petition is tracked in real-time and automatically escalated to two levels higher if action isn't taken promptly, This powerful tool prevents delays and guarantees transparency and accountability.

E-GRIEVANCE SYSTEM – ANYTIME, ANYWHERE PUBLIC COMPLAINT RESOLUTION

ACF's Digital e-Grievance System empowers citizens to report problems without visiting government offices or facing delays. From a mobile phone, people can submit grievances that are automatically routed to the right department and officials. Every complaint is transparently tracked, updated, and escalated when needed, ensuring faster action and reducing corruption.

Core Highlights

- Mobile-based grievance submission from anywhere, anytime
- Automatic routing to relevant departments and officers
- Two-level escalation system to guarantee action
- Real-time tracking & updates for every grievance
- Anonymous submission option to protect citizen identity
- Transparent & accountable process with status visibility
- Photo/video/document evidence upload for stronger cases

ACF EMERGENCY RESPONSE – INSTANT HELP WHEN EVERY SECOND MATTERS

Emergencies don't wait. Safety shouldn't either.

Yet across the country, countless women and families face danger where help arrives too late. In several tragic incidents, cries for help were raised – but delayed responses, slow systems, and fragmented communication cost precious time.

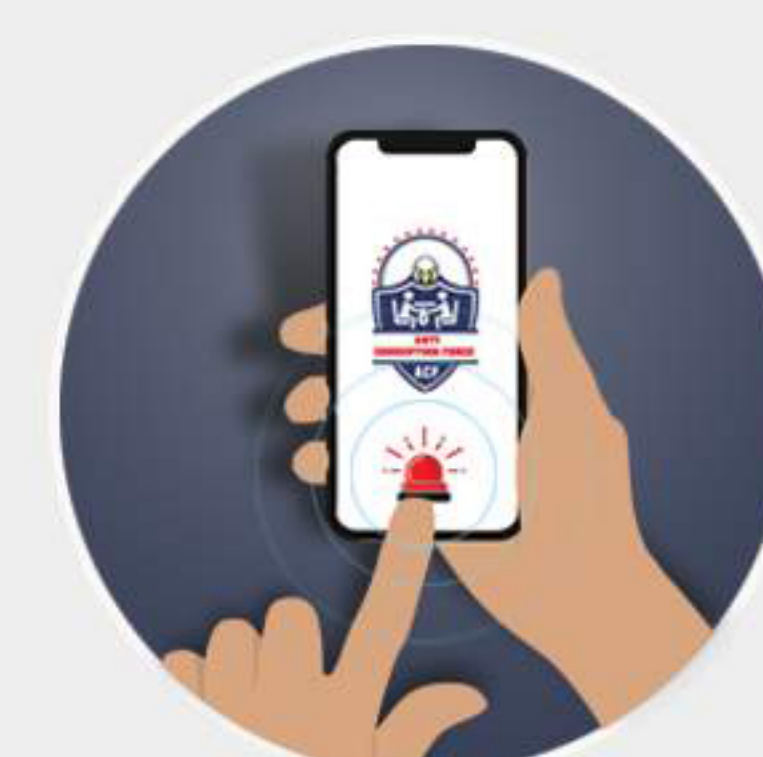

ACF Emergency Response changes this.

The moment the ACF Emergency Button is pressed, alerts are instantly triggered to:

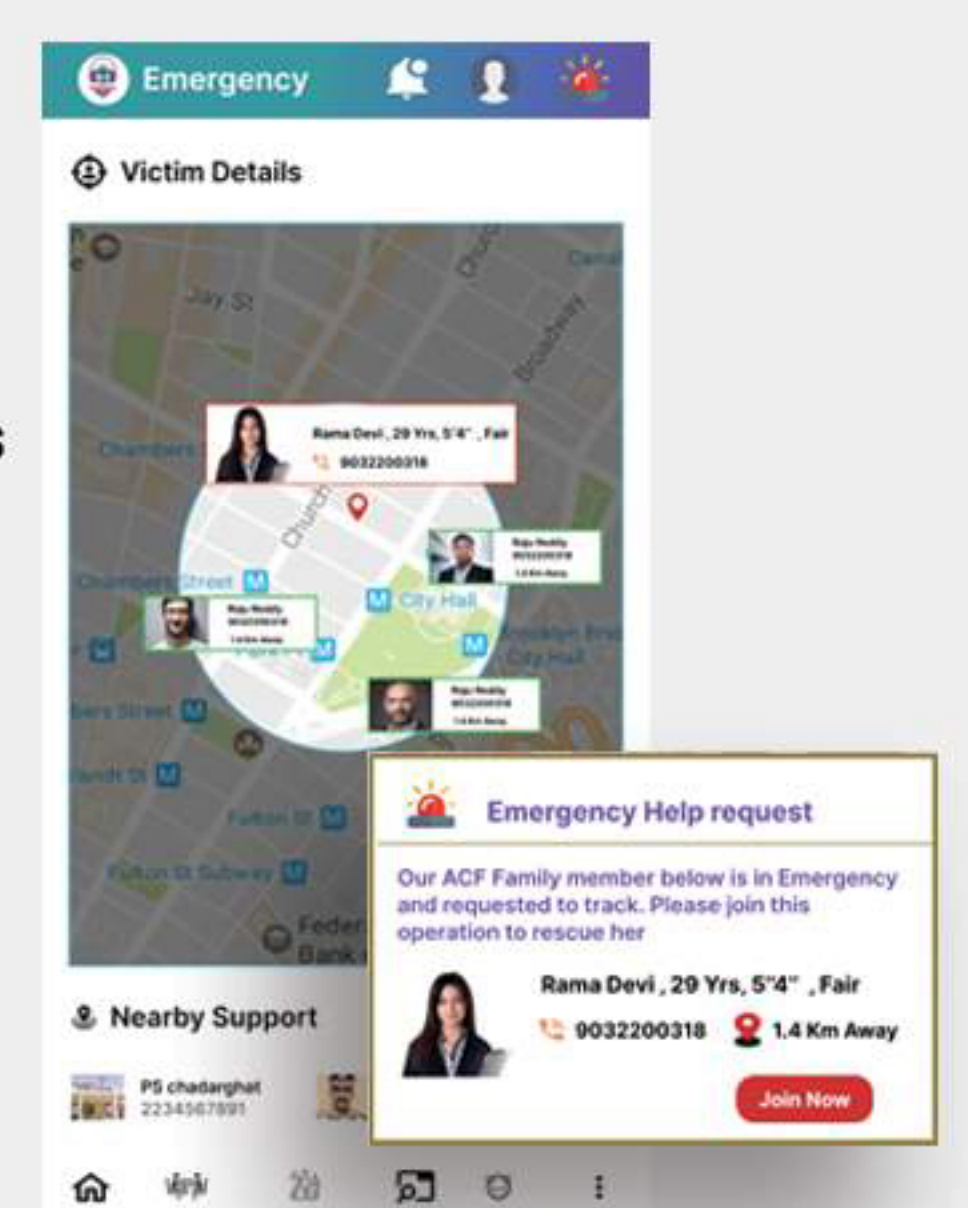

- Nearby ACF responders
- Verified community volunteers
- Local law enforcement
- Emergency support networks

**No central delays. No waiting in queues.
Action begins immediately.**

Instead of depending on one control room, ACF uses a decentralized safety network that mobilizes the closest help first – people who are already near the incident and can reach within minutes, often before traditional responders. Location intelligence, instant alerts, and coordinated follow-ups ensure that no cry for help goes unheard and no emergency is ignored. This is more than technology.

HALL OF FAME - CELEBRATING COURAGE AND CHARACTER

Some people don't just live – they inspire a nation.

ACF preserves a lifetime digital blockchain record honoring individuals who

- served the country with distinction
- saved lives or showed exceptional bravery
- excelled in sports and brought pride to India
- led impactful social or charitable work
- went “above and beyond” for society

Only those who provide written consent and verified background will be featured.

Their stories remain permanently preserved, motivating generations to come.

Because good must never be forgotten.

HALL OF SHAME - WHEN SOCIETY MUST REMEMBER AND LEARN

There are actions so harmful that society must not silently ignore them.

ACF maintains a legally verified digital record of:

- convicted rapists
- proven land grabbers
- officials punished for corruption
- individuals involved in serious social crimes

Every listing is based on:

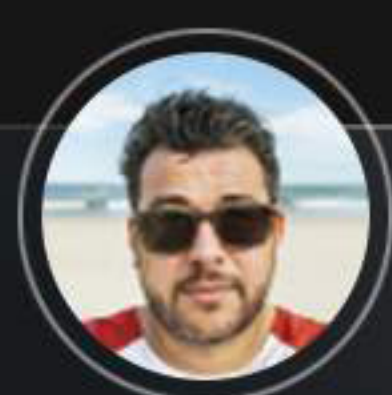

- ✓ court orders
- ✓ government records
- ✓ due legal verification

A clear public disclaimer ensures:

ACF does not engage in defamation or harassment – it documents verified truths so society can stay aware, vigilant, and safer.

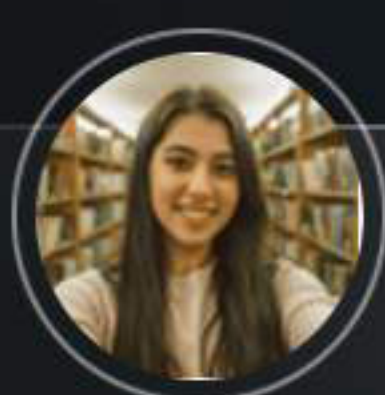

Because accountability protects future victims.

OUR MISSION IS TO EMPOWER COMMUNITIES TO REPORT AND RESOLVE ISSUES, CREATING A SAFER, MORE ACCOUNTABLE SOCIETY WHAT INNOVATIVE LEADERS SAY ABOUT ACF

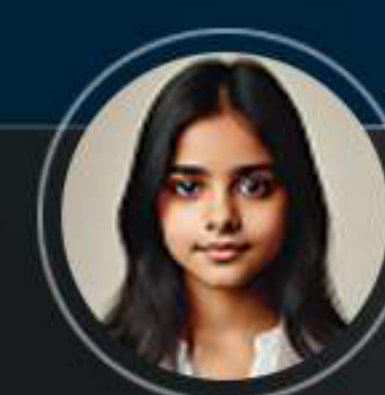

Ravi K.
Activist, Anti-Corruption
Movement

When I joined the Anti-Corruption Movement, I never imagined we'd make such an impact. Our efforts, from protests to engaging with lawmakers, led to exposing a major bribery scandal and the arrest of corrupt officials. It's a tough fight, but every success motivates us to keep going

Priya S.
Consumer Rights
Advocate

As a consumer rights advocate, I've seen the harm adulteration causes. I once uncovered a case where milk was mixed with harmful chemicals, putting the community at risk. Through education and collaboration with authorities, we removed the product. This fuels my passion to fight for safe, pure products

Neha M.
Women's Safety
Advocate

I was a victim of a violent attack, which opened my eyes to the daily vulnerability women face. Since then, I've dedicated myself to advocating for women's safety, organizing self-defense workshops, building support networks, and collaborating with law enforcement to improve safety protocols. Together, we are changing the narrative
